OUR
FREE RANGE
TURKEYS

For those of you that have dined on our turkeys before know it's the real deal. Our turkeys run free and eat what they want. They go through a gentler de-feathering process, and are not artificially enhanced like a butterball turkey. As a bonus, they cook a little quicker as well. Call our Meat Department to order. AMBROSIA
APPLES

From Ontario.

These are the first pick of our local Ontario crop. My grower loves these more than the Honeycrisp... go figure. He reasons that the Honeycrisp is almost too sweet, and after doing our informal taste test together, I'm starting to see things his way.

OUR PUMPKIN SPICE SAUSAGES

I know you all might be pumpkin spiced enough with your lattes, but this sausage caught me by surprise.

ENGLISH
CUCUMBERS

A few months ago, our grower had an incredible time dealing with the 100+ degree heat in the greenhouse and lost a lot of product. When this happened, it created a shortage (up goes the price) and we were dealing with almost twice as much pricing. Thankfully we are now through this, and back to more palatable prices.
